

# Postdoctoral Residency Admissions, Support, and Initial Placements Data

## San Francisco VA Health Care System Postdoctoral Residency in Clinical Neuropsychology

### Postdoctoral Program Admissions

Date Program Tables are updated: 10/20/2022

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

**Eligibility:**

Candidates **MUST** be graduates of **APA or CPA-accredited doctoral programs in clinical or counseling psychology** with specialized training in clinical neuropsychology consistent with guidelines established in the Houston Conference on specialty education and training in clinical neuropsychology, and **MUST** have completed an **APA or CPA-accredited internship** with additional general and specialized training to prepare the applicant for clinical neuropsychology residency training. All requirements for the doctoral degree must be completed prior to the start of the residency year. Persons with a Ph.D. in another area of psychology who meet the APA criteria for respecialization training in Clinical or Counseling Psychology are also eligible. The VA requires that applicants are **US Citizens**, men have registered for selective service, and all have had varicella infection ("chicken pox") or vaccination for such prior to the start of the residency.

**Selection Process:**

Completed applications are reviewed by the supervisors of the Clinical Neuropsychology Residency (who are members of the Psychology Training Committee) and the current postdoctoral CN resident. These members, in addition to the Director of Training for Psychology Postdoctoral Fellowship and Residency, form the Residency Selection Committee for each area of emphasis.

Application ratings are based on the applicant's experience and quality of previous clinical training in the area of emphasis, academic work and accomplishments, letters of recommendation, personal qualities of the applicant (maturity, ethics, responsibility, insight, etc.) and written material. Ultimately, our selection criteria are based on a "goodness-of-fit" and we look for residents whose experience and career goals match the training that we offer.

**Describe any other required minimum criteria used to screen applicants:**

The program does not have additional minimum screening criteria.

### Financial and Other Benefit Support for Upcoming Training Year\*
